PROGRAMME OVERVIEW

This webinar conducted over 2 days is designed to match the licensing study outline for Module 10 on assets and funds management. It covers the fundamental aspects of investment such as fund management, financial planning, portfolio management, asset classes and allocation, portfolio theory, risk and return, investment strategies and performance measurement.

PROGRAMME OBJECTIVE

This course equips participants with comprehensive understanding and knowledge based on the Module 10 Study Outline. Participants will advance their knowledge and comprehension further via an interactive teaching and learning experience while increasing their confidence in sitting for the examination. This course will be facilitated by an experienced and qualified trainer.

LEARNING OUTCOMES

Candidates are expected to have good knowledge, understanding and ability to apply in the following areas:

1. Range of investment concepts which are critical to any fund manager
2. Financial planning approach necessary to meet client objectives
3. Portfolio management process used by institutional investors
4. Major asset classes and their characteristics
5. Asset allocation decisions
6. Basic portfolio theory principles
7. Strategies available to manage equities portfolios, debt portfolios, derivatives, alternative investments, portfolios of international assets and Islamic investments
8. Concept of risk management and the trade-off between risk and return
9. Principles of performance measurement and the evaluation of fund managers
10. Psychology of investing to improve investment decision making

CANDIDATES' PREREQUISITES

It is estimated that this module will require a minimum of 120 hours of study time. Candidates are expected to have relatively strong capability in the application and analysis of information provided in this outline and its reference. The amount of study hours needed depends on the education background and work experience of the candidates. Candidates are also expected to update themselves with the latest changes relevant to this module as all questions will be continuously updated to reflect these changes.

METHODOLOGY

This course will be delivered using effective learning methods which include presentations, discussions and review examination questions.
