TECHNICAL ANALYSIS I: INTERPRETING CHARTS AND PATTERNS IN DERIVATIVES TRADING

LIVE WEBINAR AVAILABLE ON
10 NOVEMBER 2021 | 8.30PM-10.30PM

f LIVE For more details, visit www.sidc.com.my

This initiative is supported by the **Capital Market Development Fund (CMDF)**

TRADING E-WORKSHOP FOR **PROFESSIONALS**

WHAT IS THE PROGRAMME ALL ABOUT?

Technical analysis is the study of price patterns to identify trading and investment opportunities in the derivatives market. It is about charting data and interpreting the chart using technical tools and techniques. Charting is important for traders and investors to understand the behaviour and direction of the market. With adequate knowledge in technical analysis, traders and investors would be able to chart their own graph using historical price to determine which strategies to use for their trading.

This e-workshop will uncover technical analysis and how to interpret charts, trends and patterns of the historical market price for trading and investment in the derivatives market.

WHAT DO WE WANT TO ACHIEVE?

This e-workshop is designed to provide participants with the knowledge and understanding of how to interpret charts, patterns and trends of the historical price used in technical analysis for derivatives trading.

WHAT WILL YOU LEARN DURING THE PROGRAMME?

Upon completion of this programme, participants will be able to:

- describe technical analysis and the basic assumptions
- interpret charts, patterns and trends of the historical market price
- explain supports and resistance level
- discuss market trends for FCPO and FKL1 using technical analysis

COMPETENCIES

- Functional (Technical) - Technical Analysis (Level 3)
- Foundational (Product) - Capital Market Products (Level 4)
- Functional (Process) - Derivatives Dealing (Level 4)

ABOUT THE SPEAKER

David T.W. Lo

David is a full-time trader and Managing Partner of Xmodeus Trading Group PLT, a consultancy specializing in providing bespoke trading strategies and coaching for private and corporate clients in the equity/commodity derivative markets.

He has 24 years of experience in Malaysia listed derivatives industry. Before starting his own consultancy, David helmed leadership positions in futures broking divisions of major investment banks in Malaysia. He is the immediate past President of the Malaysian Futures Brokers Association (MFBA) from 2018-2019.

As a fervent believer in trader education, David has spoken in seminars and workshops to over 5000 retail traders on trading Bursa Malaysia Derivatives as well as CME, SGX & HKEx markets. This includes live market trading sessions & webinars.

He has also been a trainer of licensed brokers for the Continuing Professional Education (CPE) programme courses of the Securities Industry Development Corporation (SIDC).

David has been an invited panel speaker at international Palm Oil industry events such as POC 2019 & POTS India 2019.
