

OPPORTUNITIES IN DERIVATIVES MARKET EXPLAINED - HOW TO TRADE IN CRUDE PALM OIL FUTURES CONTRACT (FCPO)

3 MARCH 2022 | 8.30PM - 9.30PM

DERIVATIVES PROGRAMMES FOR INVESTORS

For more details, visit www.sidc.com.my

This initiative is supported by the Capital Market Development Fund (CMDf)

WHAT IS THE PROGRAMME ALL ABOUT?

FCPO trading allows you as an investor to take on riskier investments with higher promised returns. However, inexperienced or reckless investors may get into trouble by taking on risks that are poorly quantified. How much you know about FCPO trading and the risks associated with its trading?

Discover all about FCPO contracts, trading mechanisms and trading strategies. Know your rights as an investor and the responsibilities of your broker. Uncover investors' psychology in trading FCPO. All these and many more will be covered in this webinar to prepare you to become an informed FCPO investor and trader.

WHAT DO WE WANT TO ACHIEVE?

This programme is designed to provide the participants with knowledge and skills to be a smart trader in derivatives market focusing on crude palm oil futures trading.

WHAT WILL YOU LEARN DURING THE PROGRAMME?

Upon completion of this programme, participants will be able to:

- Discuss the basic concepts FCPO trading, valuation of the FCPO contract, the factors that influence the performance of instruments used to demystify the subject in comparison to securities and other products
- Explain the key features of FCPO such as their expiry date, how to exercise the contract and the risks associated with the FCPO trading
- Describe the FCPO basic trading strategies, contract or position rollover and settlement of the contract
- Discuss the investor's psychology when trading FCPO
- Discuss the rights of the investor and responsibilities of the trades
