PROGRAMME OVERVIEW

This programme equips participants with comprehensive understanding and knowledge based on Module 6 Study Outline. Participants will advance their knowledge and comprehension further via interactive teaching and learning experience while increasing their confidence in sitting for the examination. This programme will be facilitated by an experienced and qualified trainer.

PROGRAMME OBJECTIVE

This programme is designed to match the licensing study outline for Module 6 on stock market and securities law. It covers the securities industry with specific focus on the Malaysian market, regulatory structure and its governing laws, duty and standard care of dealing in securities, various offences and stock market operations.

LEARNING OUTCOMES

Upon completion of this programme, participants should be able to:

- recognise the securities industry and its significance to the Malaysian economy
- outline the regulatory structure of the securities industry in Malaysia
- identify the main laws and regulations governing the operation of the securities industry in Malaysia
- describe the activities and current trends connected to money laundering and terrorism financing and the Malaysian regulatory approach towards them
- distinguish the relationship between the stockbroking company and its client
- explain the duty and standard of care applicable to person(s) who carries (carry) on the business of dealing in securities
- describe the licensing requirements of person(s) who carries (carry) on the business of dealing in securities and their representatives
- discuss the various securities offences and describe how they are regulated
- explain the operations of the stock market in Malaysia

CANDIDATES' PREREQUISITES

Candidates are expected to possess good knowledge and understanding of the subject matter provided in the study outline and specified references. It is estimated that the SCLE Module 6 will require a minimum of 80 hours of study time. The amount of study hours needed depends on the education background and work experience of the candidates. Candidates are also expected to update themselves with the latest changes relevant to the module as all questions will be continuously updated.

METHODOLOGY

This programme will be delivered using effective learning methods including presentations, discussions and review of examination questions.
