Join our **FREE webinar** and kick start your trading journey **NOW!**

WHAT WILL YOU LEARN DURING THE PROGRAMME?

- Upon completion of this programme, participants will be able to:
- describe technical analysis and the basic assumptions
 - interpret charts, patterns and trends of historical market prices
 - explain the support and resistance levels
 - discuss market trends for FCPO and FKLI using technical analysis

WHAT IS THE PROGRAMME ALL ABOUT?

Technical analysis is the study of price patterns to identify trading and investment opportunities in the derivatives market. It is about charting data and interpreting charts using technical tools and techniques. Charting is important for traders and investors to understand the behaviour and direction of market. With adequate knowledge in technical analysis, traders and investors would be able to chart their own graph using historical prices to determine which strategies to be used for their trading.

This webinar will uncover technical analysis and how to interpret charts, trends and patterns of historical market prices for trading in derivatives market.

WHAT DO WE WANT TO ACHIEVE?

This webinar is designed to provide participants with knowledge and understanding in interpreting charts, patterns and trends based on historical prices used in technical analysis for derivatives trading.
