DERIVATIVES PROGRAMMES FOR **STUDENTS**

Join our **FREE webinar** and kick start your trading journey **NOW!**

WHAT WILL YOU LEARN DURING THE PROGRAMME?

Upon completion of this programme, participants will be able to:

- describe derivative markets and its functions
- recognise the derivatives market players
- identify career prospects in derivatives market
- identify the competencies required for a successful career

WHAT IS THE PROGRAMME ALL ABOUT?

You may be familiar with the stock market, but do you know about the derivatives market in Malaysia? The derivatives market is part of the capital market ecosystem in Malaysia and offers a variety of products such as futures and options. The derivatives market is represented by professionals holding positions as derivatives representative. There are also a wide range of career options related to the derivatives market.

In this webinar, you will discover the derivatives market, its products, a variety of career prospects related to it and competencies that can enhance your employability.

WHAT DO WE WANT TO ACHIEVE?

This programme is designed to provide university students with an awareness of the derivatives market landscape, career prospects and competencies required to enhance their employability.

COMPETENCIES

- Foundational (Product) - Capital Market Products (Level 2)
- Foundational (Regulatory) - Capital Market Product Regulations (Level 2)
- Functional (Process) - Derivatives Dealing (Level 2)

ABOUT THE SPEAKER

Wan Intan

RFP, Certified HRDF Trainer

With over 25 years of experience in the capital market, Wan Intan started her career in the broking industry. She was a former licensed representative in the equity (Kuala Lumpur Stock Exchange - KLSE) and derivatives (Kuala Lumpur Options & Financial Futures Exchange - KLOFFE) broking industries respectively, at the beginning of her career.

She was a former registered MESDAQ trader and a qualified Floor Trader when the open - outcry system was in place at the Malaysian Monetary Exchange (MME) and Commodity & Monetary Exchange of Malaysia (COMMEX). Post-migration to electronic trading, her experience spanned through dealing with products from equity, index futures, interest rate futures, bond futures, crude palm oil futures and options.

Having past experience with the investment bank and as ex-regulator Bursa Malaysia Berhad personnel, she had the benefit of being involved in various capacities in risk management, compliance, audit, marketing, strategy, branding & communications, financial planning, education, product development (conventional / Islamic) either directly or indirectly.

She has now retired and selectively participates in stints as Advisor, Trainer or Educator. She actively supports digital education, financial literacy and community building programs.
