STUDY OUTLINE

MODULE 10: ASSET AND FUNDS MANAGEMENT

This examination is designed to test candidate's knowledge and understanding of the financial issues relevant to the fund management industry. It is one of the examinations to be passed by individuals who:

- (1) intend to apply for a Capital Markets Services Representative's Licence (CMSRL) to carry on the regulated activity of fund management in relation to portfolio management (including digital investment management and boutique portfolio management company);
or
- (2) intend to hold the position of compliance officer in a firm which is a holder of a Capital Markets Services Licence (CMSL) for carrying on the business of fund management in relation to portfolio management;
or
- (3) intend to be employees of registered persons who carry out the capital markets activities as stipulated in Item 4, Part 1 of Schedule 4 of the Capital Markets and Services Act 2007.

Candidates are advised to refer to the Licensing Handbook for detailed combination of examinations required for each regulated activity.

Candidates are expected to possess good knowledge and understanding of the subject matter provided in this study outline and specified reference. In addition, candidates are expected to have relatively strong capability in the application and analysis of information in this study outline and its reference. It is estimated that this module will require a minimum of 120 hours of study time. Candidates may need less or more depending on the education background and work experience.

Candidates are expected to update themselves with the latest changes relevant to this examination as all questions will be continuously updated to reflect these changes. Module 10 examination is a closed-book test and candidates are not allowed to use any reference material during the examination.

Candidates are required to comply with the terms and conditions of the SC licensing examination. Severe penalties will be taken against candidates for any misconduct during the examination.

At the end of this study outline are 5 sample questions of various formats used in the Module 10 examination. The samples provided do not in any way reflect the level of difficulty or the subject matter distribution of the actual examination. They are merely intended to familiarise candidates with the styles of multiple-choice questions used in the examination.
