DOCUMENT CHANGE HISTORY

Version Number	Date	Description
V1.0	26/05/2023	First version

Before accessing SIDC's application and claim system, please note that it is recommended to only use the internet browsers shown below for the best user experience:

It is not recommended to use **Internet Explorer** as it is currently out of support and will cause disruption of the web page layout.

1. VERIFYING CERTIFICATES USING QR CODE

Step 1: Open the QR Code scanning application on your mobile device.

Step 2: Scan the QR Code at the bottom left corner of the certificate.

Step 3: The certificate verification page will open on your mobile device. The page will show the certificate stored in the blockchain with a unique serial number. Compare the certificate and serial number with your copy of the certificate. If both matches, then it is the genuine copy of the certificate issued by SIDC.

Certificate Details

Date: 26-05-2023 01:14:27

Serial No: CE-2023-1417-11940

File:

2. VERIFYING CERTIFICATES USING SERIAL NUMBER

Step 1: Open the web browser on your device and go to <https://erp.sidc.com.my/index/certificate/verify> to open the certificate verification page.

The screenshot shows a web form titled "Search Certificate". Below the title, there is a label "Serial Number:" followed by a text input field containing the placeholder text "Please enter your serial number". To the right of the input field is a "Submit" button.

Step 2: Enter the serial number of the certificate and click **Submit**. You can find the serial number at the bottom left corner of the certificate, below the QR Code.

The image shows two overlapping screenshots. The background screenshot is a certificate from TENGKU ZARINA TENGKU CHIK, Chief Executive Officer of Securities Industry Development Corporation. It features a signature, a QR code, and a red seal. The serial number "CE-2023-1417-11940" is highlighted in yellow at the bottom left. The foreground screenshot is the "Search Certificate" form, where the same serial number "CE-2023-1417-11940" is entered into the input field, and the "Submit" button is highlighted with an orange border and a mouse cursor.

Step 3: The page will show the certificate stored in the blockchain with a unique serial number. Compare the certificate and serial number with your copy of the certificate. If both matches, then it is the genuine copy of the certificate issued by SIDC.
