2-3 NOVEMBER 2024

9.00AM-6.00PM

PROGRAMME OVERVIEW

Asset and Funds Management is a 2-day programme designed to provide insights into fundamental aspects of investment such as fund management, financial planning, portfolio management, asset classes and allocation, portfolio theory, risk and return, investment strategies and performance measurement.

PROGRAMME OBJECTIVE

This programme is designed as a refresher course for CMSRLs or ERPs who would like to refresh themselves in Asset and Funds Management. Apart from this, the programme also serves to support those preparing to sit for the Securities Commission Licensing Examination (SCLE) Module 10 on Asset and Funds Management. It's highly recommended that participants put in a minimum of 120 self-study hours using study aids such as SCLE Module10 e-guide, practice set questions, reading list and latest market updates for maximum benefit and reinforced learning.

LEARNING OUTCOMES

By the end of this programme, participants will be able to:

- recognise the range of investment concepts which are critical to any fund manager
- identify the financial planning approach necessary to meet client objectives
- explain the portfolio management process used by institutional investors
- identify major asset classes and their characteristics
- explain the asset allocation decisions
- describe the basic portfolio theory principles
- analyse the strategies available to manage equities portfolios, debt portfolios, derivatives, alternative investments, portfolios of international assets and Islamic investments
- define the concept of risk management and the trade-off between risk and return
- explain the principles of performance measurement and evaluation of fund managers
- discuss the psychology of investing to improve investment decision-making

PROGRAMME METHODOLOGY

This programme will be delivered using effective learning methods including presentations, discussions and Q&A.
