MyCoID: 765264K

PROGRAMME OVERVIEW

In today's evolving landscape, robust and standardised sustainability reporting is no longer a choice, but a necessity. This intensive programme is designed to equip the participants with practical knowledge and strategic insights to navigate the complexities of global sustainability disclosure frameworks.

The programme will focus on the **interoperability between the Global Reporting Initiative (GRI) Standards** and the **IFRS® Sustainability Disclosure Standards** issued by the International Sustainability Standards Board (ISSB). It will also deliberate on how organisations can fulfil the requirements and expectations of the reporting standards while **aligning** with the **National Sustainability Reporting Framework (NSRF)**.

PROGRAMME OBJECTIVE

The ISSB-GRI Interoperability programme is designed to provide insights into how Global Reporting Initiative (GRI)-compliant reporting interoperates with the IFRS® Sustainability Disclosure Standards issued by the International Sustainability Standards Board (ISSB) aligned with the NSRF.
