INVESTMENT MANAGEMENT AND CORPORATE FINANCE PROGRAMME

Learning Hours:
2 Days

Mode:
Webinar

Aligned with **SCLE M12**

11-12 APRIL 2026

9.00AM-6.00PM

PROGRAMME OVERVIEW

Investment Management and Corporate Finance Programme is a 2-day programme designed to provide insights into fundamental aspects of investment, economic fundamentals, financial statement analysis, valuations, derivatives and corporate exercises.

PROGRAMME OBJECTIVE

This programme is designed as a refresher course for Capital Markets Services Representative Licence (CMSRL), Employee of Registered Person (ERP) or anyone who are interested to learn about fundamental aspects of investment management and corporate finance.

LEARNING OUTCOMES

By the end of this programme, participants will be able to:

- recognise the investment environment of the Malaysian capital market
- outline the economic fundamentals
- distinguish the inter-relationship between corporate finance, investment and strategic management
- define the concept of shareholder value and its determinants
- explain the techniques of financial statement analysis and use of various ratios to gain insights into a company's performance measure
- identify methods of computing economic value added and market value added
- define the concept of time value of money and opportunity cost of capital
- explain the capital budgeting techniques used in making project decisions
- distinguish the relationship between risks and returns and how they are measured
- identify the levels and implications of market efficiency on technical and fundamental analysis and portfolio management
- explain the basic portfolio theory
- explain the process of portfolio management and evaluation of its performance
- explain the common forms of financing and factors to consider in determining the optimal capital structure
- discuss the financing decisions which cover debt financing, equity financing and dividend policy
- define definitions of value and role of valuation
- explain valuation methodologies and their limitations
- identify various forms of derivatives instruments used to hedge financial risks arising from the financing and investment decisions of a company
- discuss interaction of financing and investment decisions in corporate restructuring, mergers and acquisitions

PROGRAMME METHODOLOGY

Interactive presentations, case studies discussions and Question-and-Answer (Q&A) sessions

Note:

This programme also serves to support those candidates preparing to sit for the Securities Commission Licensing Examination (SCLE) Module 12 on Investment Management and Corporate Finance (SCLE Revision Course). It's highly recommended that candidates put in a minimum of 120 self-study hours using study aids such as SCLE Module 12 e-guide, practice set questions, reading list, latest market updates for maximum benefit and reinforced learning.

SPEAKER

WONG LOKE LIM

Wong Loke Lim has almost thirty years of banking and finance-related experience. Currently, he is a director of several private companies which he founded, including i-Biz Concept Sdn Bhd, a financial training and management resources provider. He is also a director of a Bursa Malaysia-listed company and sits on the Board of Governors of the Financial Planning Association of Malaysia, where he was the Deputy President from 2011-2013. Previously, he was the Chief Executive/Licensed Representative of a fund management company, a general manager at KAF Investment Bank Berhad and the Group Chief Internal Auditor of a KLSE (now Bursa Malaysia)-listed company. He speaks regularly on topics relating to capital market, treasury, accounting and wealth management, and conducted training programmes for capital market professionals, private bankers and accountants in various financial centres in the Asia-Pacific region. He is a chartered accountant, a fellow of the Association of Chartered Certified Accountants and a Certified Financial Planner.
